

# Manawatu Christian Apologetics Society

## DEFENDING THE CHRISTIAN FAITH IN THE MANAWATU

**Hi there.**

We are a group of Evangelical Christians interested in *Christian apologetics* - that is, understanding and defending the Christian faith intellectually, through reasoned and informed discussion.

**If you are...**

- interested in clear-thinking Christianity
- are struggling with your kid's questions
- want to gain confidence in witnessing
- want to build a solid Christian worldview
- having difficulty answering tough problems

...then you may like to meet with us and talk about these things. We would love to hear from you.

**We have public meetings**

We meet every month to learn and discuss how to defend the Christian faith (see **Meetings** link on our website for more details). Discussion may be related to areas such as:

- the Da Vinci Code
- C.S. Lewis
- intelligent design
- the resurrection
- philosophy/theology
- environmentalism
- logic
- secularism
- arguments for God's existence
- training our kids to survive the state school system
- why we need Apologetics
- ... and many more ...

Sound interesting? Then drop us an email or keep an eye on our website for the next meeting (and other news too).

We guarantee you will never be the same after meeting with us. Like the six-million dollar man, you will be better, stronger, faster...
